Much more than a picture

View your images online!

You can view your results via our patient web portal or our patient app on your mobile device 14 days from when your practitioner receives your results.

We will send you an SMS message.

Why Envision?

- Best doctors
- Best staff
- Best technology
- Best experience

Not all radiology practices offer the same imaging. The focus at Envision is much more than high quality pictures.

We provide expert radiological support to your doctor in making the most accurate diagnosis possible.

- Internationally recognised radiological opinion
- Ultra low radiation dose levels for every patient, every time
- Liaising personally with your doctor for optimal diagnosis
- Instant access to your images for your doctor

We want you to have the most positive patient experience at Envision.

Our Services

X-ray

The latest digital X-ray equipment to minimise radiation.

Ultrasound

We specialise in vascular, musculoskeletal, paediatrics, obstetrics (pregnancy), injections, biopsies and fine needle aspirations and general ultrasound.

MRI

Full rebates available for Specialist and GP referred eligible MRI scans.

Two high quality modern wide-bore, non-claustrophobic scanners suitable for imaging larger patients.

CT

Our Siemens CT Somatom Force provides very fast, ultra-low dose scanning.

We also have the only Extremity CT machine in WA, available for 3D hand, wrist and ankle imaging.

Nuclear Medicine

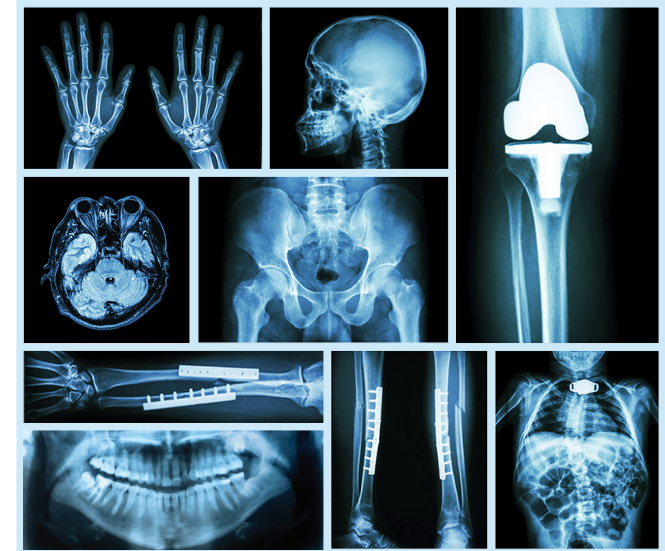

Cardiac, lung and bone scans. With the new xSPECT CT software, our images are sharper and clearer.

PET-CT

(Positron Emission Tomography – Computed Tomography) PSMA and FDG. Bone densitometry.

Dental

We cater for all your dental imaging with Cone Beam CT, OPG, MRI and CT scan at Wembley and Cone Beam CT and OPG scan at Booragoon dental branch.

We accept referral forms for all studies regardless of which company you have been referred to.
